

2-21-02

Dear Mr. Lang...

Just a few words to let you know how pleased my wife & I are with your LakeCare and C-Flo products.

We have a pond that is approximately 1 acre in size and for many years it has been over run with Scatterdock and other aquatic vegetation — in addition, last year we also had a big problem with a Planktonic Algae that made our once beautiful pond look like a large bowl of murky pea soup.

To date, I'm happy to report that after using your fantastic products our pond has never looked so good, the Scatterdock & other vegetation is about 95% eliminated, we have no algae, the fish are thriving and friends and family look forward to swimming once again.

Sincerely Yours.

Ron & Deanne Kees.
Grand Kees, Wis
